

Target Market Determination

Rest Pension

01. Overview

Purpose of this document

A Target Market Determination (TMD) is required under section 994B of the Corporations Act 2001 (Cth). This TMD is intended to provide members, potential members, Rest employees and other product distributors with a guide on the types of members for which the Rest Pension product has been designed (i.e. the target market), considering the likely objectives, likely financial situation and likely needs of the target market.

This document also sets out indicators or triggers to review the target market and other information relating to Rest Pension. It is designed to ensure good member outcomes.

This document is not a Product Disclosure Statement (PDS) and is not a summary of the Rest Pension product features or Terms and Conditions (T&Cs). This TMD does not take into account an individual's objectives, financial situation or needs, and is not intended to provide financial advice. Consumers must refer to the PDS and any supplementary documents when making a decision about this product.

Product description

Rest is focused on designing and delivering superannuation products that are simple, accessible and put our members' needs first. We measure success on investment returns, member satisfaction and cost competitiveness.

With this in mind, Rest Pension is designed to be simple and low cost and provide members with:

- Access to their super as income payments before they retire completely from the workforce, or
- A regular, flexible and tax effective income stream once fully retired.

Rest Pension provides members with a broad range of investment options so they can choose how to invest their super according to their individual financial needs and objectives. Some members may choose to invest in one or more of Rest's 'Structured' investment options - each offering different asset class weightings. Others may customise their portfolio by investing in Rest's 'Member-tailored' investment options - or a combination of both.

Who is the Product designed for?

Rest Pension has been designed for retirees, or people transitioning to retirement who have at least \$10,000 available to start a pension.

Rest Pension is not designed for members who require complex product features, or access to a more comprehensive suite of investment options such as direct share investments.

02. Key Product attributes (investment options)

Rest Pension has key attributes that make it likely to be consistent with the likely objectives, financial situation and needs of the target market because it offers a range of investment options to suit a variety of financial needs and objectives, with members able to choose a combination of options to suit their personal level of risk and return.

Investment options

The range of investment options in Rest Pension is summarised below, and outlined in Table 1:

- Cash
- Capital Stable
- Balanced (default option)
- Core Strategy
- Diversified
- Property
- Balanced - Indexed
- High Growth
- Sustainable Growth
- Australian Shares
- Australian Shares - Indexed
- Overseas Shares
- Overseas Shares - Indexed

Closed Investment options

These options are only available to existing Rest Super or Rest Corporate members invested in these options who transfer to Rest Pension, and existing Rest Pension members invested in these options who set up a new Rest Pension:

- Bonds
- Shares

Member segmentation definitions

While recognising that no two Rest members are the same, there are common member characteristics which Rest applies to segment the design of our products, and the services we provide to members.

The table on page 3 outlines the segments and describes the 'persona' of, and the options that are most suited to, a typical member within each segment.

Member segmentation definitions (continued)

| Segment | Starting Out | Delegator | Navigator | Provider | Builder | Futurist | New Beginnings |
|------------------------------------|---|---|--|--|---|---|---|
| Position statement | <p>I'm focused on getting started in life. Right now, my super is with Rest because that's who my employer uses for their staff. Super is complicated and I don't know much about it. Help me learn.</p> <p>This segment is not applicable to Rest Pension.</p> | <p>I'm focused on looking after my young family and am not particularly interested in super right now. It's a long-term thing. My focus is getting our finances order as we would love to buy a house one day.</p> <p>This segment is not applicable to Rest Pension.</p> | <p>I'm highly confident in my ability to manage my finances and my super. Because of that, I'm really engaged with growing my money, and am always looking for a better deal from my investments.</p> <p>This segment is not applicable to Rest Pension.</p> | <p>I'm a busy parent with lots of work and family commitments. Too busy to be proactive with my finances and super! I've never been money-minded and lack financial knowledge and confidence, although I'm pretty comfortable with the fund I'm in, which is the default.</p> <p>This segment is not applicable to Rest Pension.</p> | <p>I'm confident and feel very capable managing my finances and super. I'm actively involved, checking my balance regularly and keeping up with business and financial news. I'm doing all this now to set my partner and myself up for a more comfortable retirement.</p> <p>This segment is not applicable to Rest Pension.</p> | <p>I'm getting close to retirement and feeling the need to plan for this next stage. While I'm in charge of my financial decisions, I am looking for practical information about how to make the most out of my super. My two main concerns are my health and whether I'll have enough to live on when I stop working.</p> | <p>I've recently made the transition into my new life. I'm retired and rediscovering myself! Since leaving work, I try to keep active and am enjoying spending more time with friends and family.</p> |

04. Review triggers

Review triggers are events and circumstances that could indicate that the TMD is no longer appropriate. They are a prompt to potentially stop distributing the product (and direct the issuer's distributors to stop distributing) until the TMD is reviewed. Rest will conduct a review within 10 business days of a review trigger occurring. Review triggers may include a number of factors such as:

- changes in complaints regarding the nature and appropriateness of the product
- comparison of fees, costs and investment performance relative to peers
- member behaviour
- where there are amendments to the PDS that change the offerings or cover provided
- material changes to the acceptance conditions
- the introduction of other ways in which the product can be sold
- the Trustee making a determination that the best

interests of members within the product are not being promoted

- where we identify the occurrence of a 'Significant Dealing' which indicates the product is not being distributed to the target market.

A Significant Dealing is an event which has occurred which has resulted in a financial product being sold to consumers who are outside of the product's target market and has impacted a material number of members over an extended time period, causing actual financial harm to the affected members.

05. Distributor information

The information in the Review triggers section is also required to be reviewed on a quarterly basis to ensure that Rest complies with our obligations.

To facilitate compliance, product complaint information (number, nature and trends) will be provided by distributors of Rest Pension on a quarterly basis.

Member data and demographics (age, balance, size) may also be provided by distributors.

Distributors are also required to report any Significant Dealings via email at ddo@rest.com.au as soon as practicable but no later than 10 business days after the distributor becomes aware of the Significant Dealing. A Significant Dealing Notification template can be obtained by distributors on request at ddo@rest.com.au
